

Scenario1: Shopping Cart

Weak prompt: Generate test case for the cart functionality.

Output:

A	B	C	D	E	F
TC_ID	Test Scenario	Test Steps	Test Data	Expected Result	Type
CART_001	Add product to cart	Select a product and click "Add to Cart"	Valid product	Product is added to cart successfully	Positive
CART_002	Add multiple quantities of same product	Add the same product multiple times	Quantity = 5	Cart displays correct quantity and updated price	Positive
CART_003	Add different products	Add different products to cart	Product A, Product B	Both products are displayed in cart	Positive
CART_004	Update product quantity	Change quantity in cart	Quantity = 5	Quantity and total price are updated correctly	Positive
CART_005	Remove product from cart	Click Remove/Delete option	Existing cart item	Product is removed from cart	Positive
CART_006	Empty the cart	Click "Clear Cart"	Multiple products in cart	All products are removed from cart	Positive
CART_007	Verify cart total calculation	Add products and verify total	Products with known prices	Total amount is calculated correctly	Positive
CART_008	Persist cart after login	Add items before login and then login	Valid user	Cart items remain available after login	Positive
CART_009	Persist cart after page refresh	Add items and refresh page	Existing cart	Cart contents remain unchanged	Positive
CART_010	Checkout from cart	Proceed to checkout	Valid cart items	User is redirected to checkout page	Positive
CART_011	Add out-of-stock product	Try adding unavailable product	Out-of-stock item	Error message displayed and item not added	Negative
CART_012	Exceed maximum quantity limit	Increase quantity beyond allowed limit	Quantity > Max Limit	Validation message displayed	Negative
CART_013	Enter negative quantity	Update quantity with negative value	-1	Validation error displayed	Negative
CART_014	Enter zero quantity	Update quantity to 0	0	Product removed or validation displayed based on requirement	Negative
CART_015	Add invalid product ID	Attempt API/UI add with invalid product	Invalid Product ID	Error message displayed	Negative
CART_016	Proceed to checkout with empty cart	Click checkout without items	Empty cart	Checkout is blocked with warning message	Negative
CART_017	Verify cart when product becomes unavailable	Product removed from inventory after adding to cart	Existing cart item	Appropriate notification displayed	Negative
CART_018	Apply invalid coupon	Enter invalid coupon code	Invalid coupon	Error message displayed	Negative
CART_019	Apply expired coupon	Enter expired coupon code	Expired coupon	Coupon rejected with message	Negative
CART_020	Concurrent inventory validation	Product stock reduced by another user	Limited stock item	User notified if requested quantity exceeds available stock	Negative

Additional High-Priority Test Cases

A	B	C
TC_ID	Test Scenario	Expected Result
CART_021	Verify cart performance with 100+ items	Cart loads within acceptable response time
CART_022	Verify cart in multiple browsers	Consistent behavior across browsers
CART_023	Verify cart on mobile devices	Responsive UI and functionality
CART_024	Verify tax calculation	Tax calculated correctly
CART_025	Verify shipping charge calculation	Shipping charges applied as per business rules
CART_026	Verify guest user cart	Guest users can manage cart successfully
CART_027	Verify cart synchronization across devices	Cart remains synchronized after login
CART_028	Verify price update after product price change	Latest product price reflected in cart
CART_029	Verify session timeout behavior	Cart retained or handled according to requirements
CART_030	Verify accessibility of cart controls	Cart functions accessible via keyboard and screen readers

Strong Prompt:

Context

Act as a Senior Test Engineer in E-Commerce domain.

Instruction

[MANDATORY] Generate test cases for testing the cart functionality

[MANDATORY] Generate test cases covering entire functionality.

[STRICT] Include scenarios related to add/remove/update actions, no price calculation validation, no coupon/discount scenarios, no out-of-stock handling.

[MANDATORY] Include Positive and negative cases

Example

TCID | Description | Pre conditions | Steps | Expected Result

Persona

Act as a Test lead to review the test cases

Output

	A	B	C	D	E	F	G
1	TCID	Description	Pre Conditions	Steps	Expected Result	Type	
2	CART_00	Add single product to cart	User on product page	Click Add to Cart	Product added to cart	Positive	
3	CART_00	Add multiple different products	User logged in	Add Product A and B	Both products appear in cart	Positive	
4	CART_00	Add product from product listing	Product available	Click Add to Cart from listing	Product added successfully	Positive	
5	CART_00	View cart contents	Cart contains items	Open cart page	All added items displayed	Positive	
6	CART_00	Increase quantity	Item exists in cart	Update quantity from 1 to 2	Quantity updated	Positive	
7	CART_00	Decrease quantity	Quantity > 1	Reduce quantity	Quantity updated	Positive	
8	CART_00	Remove item from cart	Item exists in cart	Click Remove	Item removed	Positive	
9	CART_00	Remove one item among many	Multiple items in cart	Remove one item	Only selected item removed	Positive	
10	CART_00	Clear cart	Multiple items in cart	Use clear cart action	Cart becomes empty	Positive	
11	CART_01	Continue shopping from cart	Cart contains items	Click Continue Shopping	Redirected to catalog	Positive	
12	CART_01	Cart persistence after refresh	Cart contains items	Refresh page	Items remain in cart	Positive	
13	CART_01	Cart persistence after logout/login	User authenticated	Logout and login	Cart retained	Positive	
14	CART_01	Update quantity using textbox	Item exists	Enter valid quantity	Quantity updated	Positive	
15	CART_01	Navigate to product from cart	Item exists	Click product name	Product page opens	Positive	
16	CART_01	Guest user cart	Guest user	Add item to cart	Item added successfully	Positive	
17	CART_01	Add same product multiple times	Product page	Add repeatedly	Single line item updated	Positive	
18	CART_01	Update quantity to maximum allowed	Item exists	Enter max quantity	Update successful	Positive	
19	CART_01	Open cart when empty	No items in cart	Open cart	Empty cart message shown	Positive	
20	CART_01	Enter alphabetic quantity	Item exists	Enter ABC	Validation message displayed	Negative	
21	CART_02	Enter special characters in quantity	Item exists	Enter @#\$	Validation message displayed	Negative	
22	CART_02	Enter negative quantity	Item exists	Enter -1	Validation message displayed	Negative	
23	CART_02	Enter decimal quantity	Item exists	Enter 1.5	Validation message displayed	Negative	
24	CART_02	Enter blank quantity	Item exists	Clear quantity field	Validation message displayed	Negative	
25	CART_02	Remove item not present	Cart empty	Invoke remove action	Graceful error handling	Negative	
26	CART_02	Update quantity beyond limit	Item exists	Enter quantity above limit	Validation message displayed	Negative	
27	CART_02	Direct cart URL without session	Session expired	Open cart URL	Appropriate handling shown	Negative	
28	CART_02	Rapid add-to-cart clicks	Product page	Click Add repeatedly	No duplicate corruption	Negative	
29	CART_02	Browser back after remove	Item removed	Use browser back	Cart state remains correct	Negative	
30	CART_02	Invalid product reference in cart	Corrupted cart data	Open cart	System handles error safely	Negative	
31	CART_03	Session timeout during cart update	Session expired	Update quantity	Prompt to reauthenticate or handle safely	Negative

33							

Scenario2: File Upload

Weak prompt: Generate test cases for file upload.

Output:

	A	B	C	D	E	F	G
1	TCID	Description	Pre-Conditions	Steps	Expected Result	Type	
2	FU_001	Upload a valid file	User is on upload page	Select a supported file and click Upload	File uploaded successfully	Positive	
3	FU_002	Upload file using drag and drop	Upload area available	Drag file into upload area	File uploaded successfully	Positive	
4	FU_003	Upload multiple files	Multiple upload supported	Select multiple valid files	All files uploaded successfully	Positive	
5	FU_004	Upload file at maximum allowed size	Size limit configured	Upload file equal to maximum limit	Upload succeeds	Positive	
6	FU_005	Upload supported file types	Supported formats configured	Upload each supported format	Upload succeeds	Positive	
7	FU_006	View uploaded file after upload	File uploaded	Open uploaded file list	Uploaded file displayed	Positive	
8	FU_007	Replace existing file	Existing file present	Upload new file as replacement	Old file replaced successfully	Positive	
9	FU_008	Upload file with special characters in name	Supported file	Upload file with special characters	Upload succeeds as per requirements	Positive	
10	FU_009	Upload file with long filename	Supported file	Upload file with maximum filename length	Upload succeeds	Positive	
11	FU_010	Upload file after page refresh	Upload page available	Refresh and upload file	Upload succeeds	Positive	
12	FU_011	Upload file with minimum file size	Supported file	Upload very small file	Upload succeeds	Positive	
13	FU_012	Upload file with spaces in filename	Supported file	Upload file	Upload succeeds	Positive	
14	FU_013	Upload same file multiple times if allowed	Upload feature available	Upload same file repeatedly	System handles as per requirement	Positive	
15	FU_014	Upload file after login	Authenticated user	Upload file	Upload succeeds	Positive	
16	FU_015	Upload file and navigate away after completion	Upload completed	Navigate to another page	File remains available	Positive	
17	FU_016	Upload unsupported file type	Upload page available	Select unsupported file	Validation message displayed	Negative	
18	FU_017	Upload file exceeding size limit	Size limit configured	Upload oversized file	Upload rejected with error	Negative	
19	FU_018	Upload empty file	Empty file available	Upload file	Validation message displayed	Negative	
20	FU_019	Upload corrupted file	Corrupted file available	Upload file	Upload rejected or handled gracefully	Negative	
21	FU_020	Upload file without selecting a file	Upload page available	Click Upload without file selection	Validation message displayed	Negative	
22	FU_021	Cancel file selection	Upload page available	Open file picker and cancel	No upload initiated	Negative	
23	FU_022	Upload file with invalid filename characters	Restricted characters defined	Upload file	Validation message displayed	Negative	
24	FU_023	Upload file during network interruption	Upload in progress	Disconnect network	Appropriate error displayed	Negative	
25	FU_024	Refresh browser during upload	Upload in progress	Refresh page	Upload handled according to requirement	Negative	
26	FU_025	Close browser during upload	Upload in progress	Close browser	Upload cancelled safely	Negative	
27	FU_026	Upload executable file when not allowed	Restriction configured	Upload .exe file	Upload blocked	Negative	
28	FU_027	Upload password-protected file if unsupported	Protected file available	Upload file	Validation displayed	Negative	
29	FU_028	Upload duplicate file when duplicates not allowed	Existing uploaded file	Upload same file	Duplicate validation displayed	Negative	
30	FU_029	Upload file with zero-byte size	Zero-byte file available	Upload file	Validation message displayed	Negative	
31	FU_030	Simultaneous uploads exceeding allowed count	Upload limit configured	Upload more files than allowed	Validation displayed	Negative	

Strong Prompt:

Context

Act as a Senior Test Engineer.

Instruction

[MANDATORY] Generate test cases for testing the file upload functionality

[MANDATORY] Generate test cases covering entire functionality.

[STRICT] Include scenarios related to file types, size limits, success/failure criteria, security angle (malicious file upload).

[MANDATORY] Include Positive and negative cases

Example

TCID | Description | Pre conditions | Steps | Expected Result

Persona

Act as a Test lead to review the test cases

Output

Downloadable excel

Output:

	A	B	C	D	E	F	G
1	TCID	Description	Pre Conditions	Steps	Expected Result	Type	
2	FU_001	Upload valid supported file	User on upload page	Select valid file and upload	File uploaded successfully	Positive	
3	FU_002	Upload PDF file	PDF supported	Upload PDF	Upload succeeds	Positive	
4	FU_003	Upload DOCX file	DOCX supported	Upload DOCX	Upload succeeds	Positive	
5	FU_004	Upload XLSX file	XLSX supported	Upload XLSX	Upload succeeds	Positive	
6	FU_005	Upload PNG file	PNG supported	Upload PNG	Upload succeeds	Positive	
7	FU_006	Upload file at maximum allowed size	Size limit configured	Upload file equal to limit	Upload succeeds	Positive	
8	FU_007	Upload multiple files	Multi-upload enabled	Upload multiple valid files	All files uploaded	Positive	
9	FU_008	Drag and drop upload	Drag-drop enabled	Drag file to upload area	Upload succeeds	Positive	
10	FU_009	Upload file with spaces in filename	Supported file	Upload file	Upload succeeds	Positive	
11	FU_010	Upload file with long filename	Supported file	Upload file	Upload succeeds per requirement	Positive	
12	FU_011	Upload unsupported file type	Upload page available	Upload unsupported format	Validation displayed	Negative	
13	FU_012	Upload oversized file	Size limit configured	Upload file beyond limit	Upload rejected	Negative	
14	FU_013	Upload zero-byte file	Zero-byte file available	Upload file	Validation displayed	Negative	
15	FU_014	Upload without selecting file	Upload page available	Click upload	Validation displayed	Negative	
16	FU_015	Upload corrupted file	Corrupted file available	Upload file	Handled safely	Negative	
17	FU_016	Network interruption during upload	Upload in progress	Disconnect network	Error displayed	Negative	
18	FU_017	Upload duplicate file when restricted	Duplicate restriction enabled	Upload same file	Validation displayed	Negative	
19	FU_018	Upload executable file (.exe)	Security enabled	Upload .exe	Upload blocked	Negative	
20	FU_019	Upload renamed executable file	Content validation enabled	Rename .exe to .pdf and upload	Blocked based on actual type	Negative	
21	FU_020	Upload malicious script file	Security enabled	Upload script file	Upload blocked	Negative	
22	FU_021	Upload malware infected file	Virus scan enabled	Upload infected file	Upload rejected	Negative	
23	FU_022	Upload file with SQL injection in filename	Validation enabled	Upload crafted filename	System handles safely	Negative	
24	FU_023	Upload HTML/JS file when prohibited	Restriction configured	Upload HTML file	Upload blocked	Negative	
25	FU_024	Upload ZIP containing executable	Archive scanning enabled	Upload ZIP	Upload rejected	Negative	
26	FU_025	Upload password-protected file when unsupported	Restriction configured	Upload file	Validation displayed	Negative	
27	FU_026	Verify upload success message	File uploaded	Complete upload	Success message shown	Positive	
28	FU_027	Verify upload failure message	Invalid file uploaded	Attempt upload	Failure message shown	Negative	
29	FU_028	Concurrent uploads	Multiple users	Upload simultaneously	System remains stable	Positive	
30	FU_029	Upload large file within allowed limit	Large file available	Upload file	Performance acceptable	Positive	
31	FU_030	Upload multiple files simultaneously	Multi-upload enabled	Upload files together	All files uploaded successfully	Positive	
32							

Scenario3: Mobile App – OTP Login

Weak prompt: Generate test cases for OTP login on mobile.

Output:

TCID	Description	Pre Conditions	Steps	Expected Result	Type
OTP_001	Login with valid registered mobile number	User registered	Enter mobile and request OTP	OTP sent successfully	Positive
OTP_002	Login using valid OTP	OTP received	Enter valid OTP and submit	User logged in successfully	Positive
OTP_003	Verify OTP autofill	OTP received	Allow OTP autofill	OTP populated automatically	Positive
OTP_004	Resend OTP after timeout	OTP request initiated	Click Resend OTP	New OTP generated and sent	Positive
OTP_005	Login with latest resent OTP	Multiple OTPs generated	Enter latest OTP	Login successful	Positive
OTP_006	OTP masked during entry	OTP screen displayed	Enter OTP	OTP field follows masking requirement	Positive
OTP_007	Verify OTP expiry countdown	OTP generated	Observe timer	Countdown displayed correctly	Positive
OTP_008	Login after app relaunch	OTP generated	Reopen app and enter OTP	Login succeeds	Positive
OTP_009	Verify OTP received via SMS	Valid mobile number	Request OTP	OTP SMS received	Positive
OTP_010	OTP login on different devices	Registered user	Request and enter OTP	Login successful as per policy	Positive
OTP_011	Invalid mobile number format	Login page open	Enter invalid mobile number	Validation message displayed	Negative
OTP_012	Unregistered mobile number	User not registered	Request OTP	Appropriate error displayed	Negative
OTP_013	Submit incorrect OTP	OTP generated	Enter wrong OTP	Login denied	Negative
OTP_014	Submit expired OTP	OTP expired	Enter OTP	OTP rejected	Negative
OTP_015	Submit blank OTP	OTP screen open	Leave OTP empty and submit	Validation displayed	Negative
OTP_016	Submit partial OTP	OTP screen open	Enter fewer digits	Validation displayed	Negative
OTP_017	Exceed maximum OTP attempts	OTP generated	Enter wrong OTP repeatedly	Account/session blocked as per policy	Negative
OTP_018	Use old OTP after resend	New OTP generated	Enter previous OTP	OTP rejected	Negative
OTP_019	Use OTP for another mobile number	Two users exist	Enter OTP generated for different user	Login denied	Negative
OTP_020	OTP request spam	Login page open	Request OTP repeatedly	Rate limiting applied	Negative
OTP_021	OTP not entered before timeout	OTP generated	Wait until expiry	OTP becomes invalid	Negative
OTP_022	Enter alphabets in OTP field	OTP screen open	Enter letters	Only numeric input accepted	Negative
OTP_023	Enter special characters in OTP field	OTP screen open	Enter special characters	Validation displayed	Negative
OTP_024	Network failure during OTP request	Network interrupted	Request OTP	Error displayed gracefully	Negative
OTP_025	Network failure during OTP verification	OTP entered	Disconnect network and submit	Appropriate error shown	Negative
OTP_026	Verify OTP not exposed in logs/UI	OTP generated	Review UI/logs	OTP protected appropriately	Positive
OTP_027	Attempt OTP replay attack	OTP already used	Reuse OTP	OTP rejected	Negative
OTP_028	Brute-force OTP attempt	Multiple OTP guesses	Submit repeated combinations	Security controls triggered	Negative
OTP_029	Session timeout on OTP page	OTP page open	Remain idle	Session handled as per requirement	Negative
OTP_030	Login after successful OTP verification	Valid OTP entered	Submit OTP	User redirected to home/dashboard	Positive

Strong Prompt:

Context

Act as a Senior Test Engineer in mobile app testing.

Instruction

[MANDATORY] Generate test cases for testing OTP Login functionality in mobile app

[MANDATORY] Generate test cases covering entire functionality.

[STRICT] Include scenarios related to platform (Android/iOS),no resend behavior, no network failure scenario, no Appium/device

[CRITICAL] Do not include scenario's related to OTP expiry time

[MANDATORY] Include Positive and negative cases

Example

	A	B	C	D	E	F
1	TCID	Description	Pre Conditions	Steps	Expected Result	
2	OTP_001	Login with valid registered mobile number	App installed; user registered	Open app > Enter valid mobile number > Request OTP	OTP request accepted and OTP entry screen displayed	
3	OTP_002	Login using correct OTP	OTP received	Enter valid OTP and tap Login	User logged in successfully	
4	OTP_003	Invalid mobile number format	App installed	Enter invalid mobile number and request OTP	Validation message displayed	
5	OTP_004	Unregistered mobile number	App installed	Enter unregistered number and request OTP	Appropriate error message displayed	
6	OTP_005	Incorrect OTP entry	OTP received	Enter incorrect OTP	Login denied and error message displayed	
7	OTP_006	Blank OTP submission	OTP screen displayed	Leave OTP field blank and tap Login	Mandatory field validation displayed	
8	OTP_007	OTP field accepts only numeric values	OTP screen displayed	Enter alphabets/special characters	Invalid input prevented or validation displayed	
9	OTP_008	Maximum OTP length validation	OTP screen displayed	Enter OTP longer than allowed length	Extra characters restricted or validation displayed	
10	OTP_009	Resend button unavailable before allowed action	OTP screen displayed	Observe resend option immediately after OTP request	Resend option not available before configured condition	
11	OTP_010	Multiple taps on Login button	OTP entered	Tap Login repeatedly	Single login request processed	
12	OTP_011	No network during OTP request	Network disconnected	Enter valid number and request OTP	Network error message displayed	
13	OTP_012	Network loss during OTP verification	OTP entered; disconnect network	Tap Login	Appropriate network error displayed	
14	OTP_013	Switch from Wi-Fi to mobile data during login	OTP screen displayed	Change network and continue login	Process handled gracefully	
15	OTP_014	Android device OTP login flow	Android device available	Perform valid OTP login	Login works successfully on Android	
16	OTP_015	iOS device OTP login flow	iOS device available	Perform valid OTP login	Login works successfully on iOS	
17	OTP_016	App minimized during OTP entry	OTP screen displayed	Minimize and reopen app	OTP screen state retained as designed	
18	OTP_017	App relaunch after force close	OTP screen displayed	Force close and reopen app	User returned to expected screen	
19	OTP_018	Copy-paste OTP into field	OTP available in clipboard	Paste OTP and login	OTP accepted and login succeeds	
20	OTP_019	Leading/trailing spaces in OTP	OTP screen displayed	Paste OTP with spaces	Spaces handled correctly or validation shown	
21	OTP_020	API/server error during OTP validation	Backend returns error	Submit OTP	Meaningful error message displayed	
22						

Observations:

1. In ICEPOT method the output generated are exactly matching with the INSTRUCTIONS which we provided.
2. We can exclude and include the scenarios under INSTRUCTIONS based on our requirements.
3. The output generated is more specific.
